

the TYLER TIMES

Volunteer Opportunities

Spring is just around the corner, and summer is just over the horizon! As we on the TLPA start planning for this year's weed remediation and other activities, we find that we are in need of some help from the Tyler Lake community. We have two volunteer needs:

- We need a few more volunteers to occasionally collect water samples from specific sites, to be used for testing by the Torrington Area Health District (TAHD). This is a very simple process and can be done from a kayak, canoe or small boat. The time spent doing this is minimal, but it could potentially have a very large impact on our water quality. If you are interested, or for more information, contact our Water Quality Team Chairman Mark Harris [via email](#) or phone 860.491.9095.
- We are also in need of a Webpage Coordinator and a Social Media Coordinator. This can be the same person, or two people, depending on your skills and interest. Both will be working with the Director of Communications and other TLPA Officers.
 - The Social Media Coordinator will update and maintain our Facebook and any other new social media outlets. As many already do this on their own, this should not be a very large undertaking. If you are interested in helping the Tyler community with your social media knowledge, contact the Director of Communications [via the TLPA email](#) (or just reply). They can also be reached by text at 860.614.4271.
 - We are Very much in need of someone with webpage knowledge. We are looking for someone to act as a knowledgeable mediator between us and an outside paid webpage design and development company, TBD. This will include participating in needs assessment, recommendations on how to proceed, and with whom, and coordinating that process. We anticipate that our functionality needs are pretty modest and straight-forward. After completion, this person would hopefully stay on for maintenance, or train a successor. If you are interested in helping us improve our webpage, or for more information, contact the Director of Communications [via the TLPA email](#) (or just reply). They can also be reached by text at 860.614.4271.

Thank you very much for your consideration in helping the Tyler Lake community thrive and grow. We are all volunteers who believe that we can make a difference, and we hope that you join us. The TLPA.
